# Cooling. Comfort. Cash back.

What's the most cost-efficient way to cool your home? If you need to cool only one or two rooms, a window air conditioner (AC) might be the way to go.

Progress Energy is here to help with rebates on select ENERGY STAR qualified window air conditioners. You'll save money up front and enjoy lower energy bills for years to come.

## Get a \$25 Window AC Rebate

Purchase an ENERGY STAR qualified window AC and receive a \$25 Progress Energy rebate for each unit. These high-efficiency units can cool your home and cut humidity, while using 10 percent less energy than conventional models.\*

## Rebate Eligibility Guidelines

-  Rebates are available only to Progress Energy Carolinas customers.
-  Application must include account number and must be filled out completely.
-  Rebate application must include original sales receipt.
-  Rebate application must be received within 90 days of purchase.
-  Installed units are subject to quality assurance inspections for rebate eligibility.

\*Window air conditioners must be ENERGY STAR qualified. Rebate is available for up to four units per household. All rebated window air conditioners must be listed by the EPA as ENERGY STAR qualified on [energystar.gov](http://energystar.gov).
