

Warming homes.  
And hearts.

Energy Neighbor Fund

You can help those who are struggling to stay warm this winter. Your gift to the **Energy Neighbor Fund** helps low-income families in your community heat their homes. Progress Energy and its employees contribute more than \$600,000 annually and 100 percent of contributions are distributed to families through local social service agencies.

**Thank you for helping to warm the homes, and hearts, of those who need it most.**
