## Important information about Progress Energy Florida's 2012 residential rates

Approved by the Florida Public Service Commission, the price for a residential customer using 1,000 kilowatt-hours (kWh) per month will change to \$123.19 beginning with January 2012 billing. This represents a 3 percent increase over the current monthly bill of \$119.34 per 1,000 kWh. This increase comes after two years of bill reductions.

The 3 percent increase is a result of increased utility costs for fuel and purchased power and environmental improvement projects. The overall increase was lowered by a reduction in the charges for new nuclear generation and energy-efficiency programs. The largest portion of the increase is the fuel charge, which recovers the actual cost of fuel, mainly natural gas and coal, used to generate electricity. The company makes no profit from the fuel portion of the customer bill.

Progress Energy focuses on operating safely, efficiently and reliably for its customers. The company actively manages expenses, streamlines processes and uses technology to keep costs as low as possible for the more than 1.6 million customers who depend on us.

- ① Customer charge:** A fixed monthly amount to cover the cost of providing service to your location. This charge is applicable whether or not electricity is used.
- ② Energy charge:** All the costs, other than fuel, involved in producing and distributing electricity.
- ③ Fuel charge:** This includes the actual cost of fuel used to produce electricity. The company's two largest fuel sources are coal and natural gas. Fuel costs are passed through from fuel suppliers to customers with no profit to the company. This charge is adjusted annually to reflect changes in the cost of fuel.
- ④ EnergyWise Home<sup>SM</sup> program credit:** EnergyWise Home is a free program that offers qualified participants a credit of up to \$147 a year depending on their monthly energy usage and the appliances enrolled in the program.
- ⑤ Gross receipts tax:** Collected in accordance with Florida state statutes. This tax is assessed on all electric public utilities and paid directly to the state. Progress Energy Florida does not keep these tax monies.
- ⑥ Franchise fee:** This is a fee that we collect to compensate communities for using their rights of way. All of the fee is sent back to the local community; Progress Energy Florida does not keep any franchise fees. Fees vary by community.
- ⑦ County/municipal utility tax:** In accordance with state law, a county/municipality may levy a tax on the purchase of electricity within that area. This tax is paid directly to your county/municipality. Progress Energy Florida does not keep any of these taxes.
